OLEX/ARS Drive Day

As you know ARS & Olex ran a joint promotion based on our cut to length cable service. The prize was for the winners to join us at Oran Park Race way for a drive day with Ian Luff and his crew. What a day! With 2 WRX and a V8 SS ute we all knew it was going to be fun. To the credit of all, there were very few “spins” (except those initiated by the instructor’s use of the hand brake).

At left (1) a bunch of very nervous but excited “drivers” being given final instruction by Ian Luff. Our thanks to Ian and his crew for a fantastic day.

Winners are Grinners

Photos on left:
  Olex/ARS Drive day Winners
  (2) Josh Spencer (Wilken Service) was the overall winner with the most consistant times.
  (3) John Gaf (Gaftech) was our second place getter and
  (4) Paul Karpathy (Planelec Services) came in third for the day.
  (5) Ian Luff presents Rod Damm from Empower Solutions with the Hot Shot award, Rod knows what the term “roundy roundy car” means!!!!
  (6) Ian Luff presenting Sam “Wagga Boy” Quenton (Great Southern Electrical) with the “Hard Charger”. Sam was the quickest customer on the day and could have a career as a Rally driver if the electrical game doesn’t work out.
  (7) Rod Ellis (UEA) in the “office”.
  (8) “Judicious use of force” was the way to go with the V8 grunt of the SS”
  (9) Even the WRX got out of shape in the slippery stuff.
Darwin Branch is up and running

Darwin branch was officially opened on July 31 by Dr Chris Burns MLA, Minister for Business. An all day BBQ was run for customers who came to check out what we have been up to. The branch is now fully operational and “gunning” for business, so call in and see what we can do for you.

At left our new Darwin branch staff. Allan Priestley, storeman, and Phil Baily, Manager. Al is a well know Rugby League player, currently playing for University Sharks. He started playing League at the tender age of 6 in Rockhampton QLD and has represented both the Territory and Australia in his League career. Previous experience in the Electrical Wholesale industry will assist Al get Darwin “up and running”.

Phil joins us with 15 years as a Territorian working in a number of industries, including the electrical arena. His strong sales and management background was what we wanted to build the Territory business. He is a keen fisherman (who in the territory isn’t) and has a passion (his wife, Jenny might say obsession) for rebuilding old outboard motors.

All Round Supplies welcomes Allan and Phil to the fold.

Now Available

Integral Energy has changed it’s standard for Overhead Distribution Construction. To assist our customers All Round Supplies has developed a new selection guide for MCI 0005. This guide will make estimating and ordering much easier and quicker than before. We can supply the guide in both electronic and hard copy format.

Call now for your copy.

The first MALE Blonde joke

An Irishman, a Mexican and a Blonde Guy were doing construction work on scaffolding, on the 20th floor of a building. They were eating lunch …..The Irishman said, ‘Comed beef and cabbage! If I get corned beef and cabbage one more time for lunch, I’m going to jump off this building.’ The Mexican opened his lunch box and exclaimed, ‘Burritos again! If I get burritos one more time I’m going to jump off, too.’ The blonde opened his lunch and said, ‘Vegemite again! If I get a Vegemite sandwich one more time, I’m jumping also.’

The next day…..The Irishman opened his lunch box, saw corned beef and cabbage, and jumped to his death. The Mexican opened his lunch, saw a burrito, and jumped, too. The blonde guy opened his lunch, saw the vegemite and jumped to his death as well.

At the funeral …..The Irishman’s wife was weeping. She said, ‘If I’d known how really tired Paddy was of corned beef and cabbage, I never would have given it to him again!’ The Mexican’s wife also wept and said, ‘I could have given him tacos or enchiladas! I didn’t realize he hated burritos so much.’ Everyone turned and stared at the blonde’s wife, who just stared back and said, ‘Don’t look at me. The idiot made his own lunch.’
All Round Supplies is proud to announce that we are now distributors for HEARTHILL products. The range includes Aerial Equipment, Underground & Rodding equipment and Drum Handling equipment and Winches. The photos here are a small part of the Hearthill range. Call into your local ARS branch for more information.

As well as the standard products, Hearthill can design & manufacture specialised gear for specific applications. Call us for more information.

HEARTHILL SPECIAL OFFER

**Cable Stands**
- SLS1-2T— 2 Tonne Scissor Lift Stands $1670.00/pair
- SLS3-4T— 4 Tonne Scissor Lift Stands $1730.00/pair
- DJSS-8T— 8 Tonne Drum Stands $2225.00/ pair

**Trench Roller**
- NTR-120— Flat trench roller with plastic roller $45.40 each

**Rodding Equipment**
- FRD7 –80— 7mm Fibreglass rod with reel & stand $390.00 each
- FRD9-150— 9mm Fibreglass rod on reel & dispenser. No tracer wire $850.00 each
- FRD11-200— 11mm Fibreglass rod on reel & dispenser with tracer wire $1120.00 each

All prices are plus freight & GST. Pricing correct at time of printing and shall remain in force till October 30, 2009.
